Helping  
Young People  
Achieve  
Independent  
Living

The Children's Center, Inc. (TCCI) has served children and families since 1878, and provides early intervention services, emergency shelter and residential care that is designed to aid children and families to overcome adversity.

# The 21 Club

One of the agencies highest needs is the Galveston Island Transitional Living Program (TLP). This program serves approximately 20 youth that need preparation for independent living. Many youth we serve are not equipped with the appropriate social or cognitive skills to face the adult challenges of being independent despite their legal age of 18. Today, when a youth whom has previously been in the custody of the government turns 18, social and mental health services are often eliminated, creating even more barriers to success.

TCCI strives to support the lives of these vulnerable young people by transitioning them into adulthood in order to prevent economic, emotional and physical exploitation.

Their histories are often tragic where homelessness, neglect, physical and / or sexual abuse is common.

These youths are admitted into our care and are provided case management to assist them in transitioning to independent living. Many are completing high school, learning trades and even attending college. In fact, some are serving in our armed forces, working in the health care industry and/or other varied businesses in our community.

By committing \$ 21 per month you will:

- Positively impact the future of vulnerable and at-risk young people.
- Assist in building productive lives for over 20 young people at any given time.
- Provide housing, case management, food, clothing and supplies
- Support a clean and caring environment that will nurture the growth and development of young people into caring productive adults.

**21 Club Membership dues are \$ 21 per month**

21 Club Membership benefit includes:

- A quarterly newsletter highlighting programs and progress of youth.
- An invitation to attend an Annual Meeting at which a young person will be honored for their achievement.
- An Invitation to an Event honoring Donors and Volunteers.
